

**IEC** telecom

**SATELLITE IT UP!**

we keep you connected beyond limits

## ABOUT US

We supply high quality satellite communication products and solutions as well as efficient end-to-end voice and data services, when and where it matters most. We enable digitalization for remote units on land and offshore. For urban networks, we provide powerful satellite back up to ensure the business continuity of your enterprise. IEC Telecom offers global coverage for international operations and a wide variety of area-by-area plans for regional use.

## OUR OFFERINGS

We offer a diverse portfolio of products and solutions for various markets, and our value-added services adapt efficiently to ever-evolving client communication requirements.

### SATELLITE PRODUCTS

From handsets to VSAT solutions, IEC Telecom will have you covered.

### SMART SOLUTIONS

Get full visibility over your communication assets to control critical operations and maintain reliable connectivity where it matters the most.

### VALUE-ADDED SERVICES

Keep your business ahead of the curve with our advanced satcom services! Monitor usage consumption, manage bandwidth volume, and control your budget in real time. In addition, we offer 24/7 support for your satellite-based solutions during their full lifecycle.

# TRAKSAT

Traksat was founded in 2012 as a specialized branch of IEC Telecom Group to answer the growing need for Machine To Machine, Fleet Tracking and Asset Management applications.

Traksat delivers wireless data turn-key solutions over multiple wireless networks and provide custom development services for those companies that do not have the in-house expertise.

## OUR APPROACH

### CUSTOMIZED SOLUTIONS

Our integrated approach of in-house design and engineering expertise allows us to develop truly unique solutions tailored for individual customers' needs.

### WORLDWIDE LOGISTICS

We deliver our services anywhere in the world, under any conditions. From secure military applications to wireless networks, our worldwide team gets the job done.

### CUSTOMER-ORIENTED PHILOSOPHY

We put our clients' needs first when seeking ways to provide the most relevant solutions, services, and support. We listen and understand. These are the cornerstones of our approach.

## GO EVEN FURTHER BY CHOOSING

### **OPTICLOUD**

OptiCLOUD is a fully customizable range of services that optimizes bandwidth volume and monitors satellite line activity. Enhance user experience with smart filters, interoffice connectivity, and secure corporate applications.

### **OPTIACCESS**

OptiACCESS is a data compression and email software. It offers 3 to 5 times quicker web browsing for easy access to online portals, social media and weather forecasts. OptiACCESS generates only 5% of the data created by standard email software, so you save 95% data on correspondence straightaway.

### **OPTISIM**

OptiSIM is a web-based solution which provides, via a secured (SSL) access, the ability for IEC Telecom customers to manage and monitor all their satellite lines (SIM cards, VSAT links or devices), call/consumption details, and invoices, enabling an extensive follow-up of prepaid and post-paid accounts.
